

Federation of Agriculture elects officers for new year

The annual meeting of the Hastings County Federation of Agriculture was held at the Ivanhoe Hall on Feb. 23, two weeks later than originally planned, due to bad weather.

Members of the Ivanhoe Women's Institute arranged the tables and supplied the dishes and beverage for a pot luck supper. They were thanked by Donald Sills.

Following this, Phil Flagler of C.A.B.G., Belleville, was introduced and gave his address and slides on "Fifty Years of Radio" which evoked many happy memories of the days before television when The Happy Gang,

Lone Ranger, Fibber McGee and Molly and many more were eagerly awaited programs. The years were spanned from Charles Lindbergh crossing the Atlantic to Winston Churchill broadcasting to the nation in World War Two, to the astronauts landing on the moon.

Mr. Flagler was thanked by Ross Ketcheson, who presented him with some county cheese and said that Phil seemed like one of the family and was always welcome at federation meetings.

The president opened the business part of the meeting and reviewed the past year's program. The minutes of the last annual

meeting were read and approved. Copies of the financial report were distributed by the treasurer. This was discussed and then adopted as printed.

Wilfrid Forestell gave very good reports for the C.I.A.G. committee and the Farm Service Club.

Donald Martin introduced the new O.F.A. fieldman for Hastings County - Ossie Bowes, Forestell's Falls, Renfrew County - who presided for the nomination, from the floor, and election of the new officers, as follows: O.F.A. Director, Past President Donald Martin, Tweed;

President, W. Donald Sills, Ros-

lin; 1st Vice President, Alex McCurdy, Stirling; 2nd Vice President, Glen Bush, Stirling; Secretary, Allan McDowell, Stirling; Treasurer, (to be appointed later); Directors: Henry Van Winkle, Foxboro, Ivan May, Foxboro; Charles Irvine, Stirling; Glen Elliott, Stirling; Harold Harris, Madoc; Owen Ketcheson, Roslin; James Wallbridge, Belleville; Mrs. Shirley Reid, Springbrook.

Mr. Bowes then addressed the gathering on the current issues of the C.F.A. and the advantages of an Individual Service Member membership.

Four new members joined.

A motion was passed to ask the Ontario Federation to act immediately to try to have legislation passed whereby trespassers on farm property do so, at their own risk.

The door prize, a box of candy, was won by Lindsay Sills.

DAMAGED BY SNOW

A section of the old stone mill, on Front St. near James St., collapsed Friday afternoon from the weight of snow on its

roof. A large section of the metal siding on the east wall, which is no longer in use,

is owned by Mrs. P. Tokley.

COUNCIL BRIEFS

SEEKS ASSISTANCE

Ray Burley appeared before council at Monday night's meeting to present a request for assistance. Mr. Burley's residence, at the corner of Roscoe Avenue and Front Street, has a carport at a lower level than the street, and in winter when the ditch is full of snow, the water pours into the carport.

But there is another problem. Mr. Burley's carport is only eight feet wide over the ditch and with two cars and a trailer, he often has trouble squeezing in and out of the driveway. In winter, when the streets are narrower with the snow, getting in and getting out are sometimes impossible.

Reeve Robert Anderson stated that this is a legitimate problem and that when the streets committee studies the installation of culverts for this year, Mr. Burley's predicament will definitely be under consideration.

AMENDMENT

At Monday night's council meeting, an amendment was made to the appointment of D. W. Rodgers to the Quinte Planning Board. The appointment, which was originally passed by council as a two year term, was changed to a one year term. The reason for this change is that too many non-council members were appointed to the Quinte Board for two year periods. Reeve Robert Anderson explained that there is little difference between one two-year term and two one-year terms.

IMPROVEMENTS

It was decided at Monday night's village council meeting to cover the floor in the kitchen of the community hall. Councillor Fred Brandt moved that the village employees be instructed to purchase vinyl linoleum at a cost of about \$39 and cover the presently unsatisfactory floor surface. The matter of a refrigerator for the community hall kitchen was also discussed.

RESIGNATION

Claude Trumble gave up his appointment to the Lower Trent Valley Conservation Authority Monday evening when the village council appointed Councillor Edward Klompemaker to the position.

WATER APPROVED

A letter from the Public Health Inspector of the Hastings and Prince Edward Counties Health Unit was read at council meeting Monday night. Stating the results of a water test on the village water supply, the letter, performed on February 18, showed no dangerous waste material in Stirling's drinking water and the Health Unit approved the water as satisfactory.

REQUEST REJECTED

A letter from the Belleville Santa Claus Parade Committee was presented to council Monday night. The letter contained a request for a donation toward this year's Santa Claus parade. Council decided not to send a donation as this was a project of the city of Belleville, and not a project of the village.

DUMP PERMIT

Council decided Monday night that the application for a waste disposal permit cannot be avoided any longer. Councillor Fred Brandt moved that an application be filed. The motion was seconded by Edward Klompemaker.

LIBRARY BUDGET

The proposed 1971 budget for the Stirling Public Library was read at council meeting on Monday night. Mrs. B. Faulkner, secretary of the Stirling Public Library Board, presented the following list of revenues and expenditures:

Revenues:

- Rental agreement with Village of Stirling, \$3,000; Rawdon Township, \$150; Huntingdon Township, \$50; Hastings County, \$150; Province of Ontario, \$1600; Stirling, \$2400. Total Revenue, \$7350.

Expenditures:

- Salaries, \$2800; Books, \$1000; Supplies, \$200; Property, \$3150; Miscellaneous, \$100; Total Expenditures, \$7350.

The grant from the village of Stirling was increased to \$2,400 from \$2000 last year.

BUILDING PERMIT

A building permit for the Hastings County Board of Education was studied at council meeting Monday night. The permit dealt with the construction of another portable classroom at the Stirling Public School. This classroom, the sixth to be assembled here, will measure 24 feet by 32 feet, and will probably be brought to the school yard in two parts to be assembled there.

Adjudicators named for Stirling festival

Adjudicators have been chosen for the 1971 Stirling Festival of Sacred Praise to be held in May.

POOL HALL PERMIT DENIED BY COUNCIL

Village Clerk, W. L. Pollock, presented a request to council at Monday night's meeting for another pool room in the village. After a discussion of the merits of such properties, it was decided that one pool room would satisfy the needs of the village. It was moved by Councillor Ed Klompemaker and seconded by Councillor Douglas Bensley that the request be denied for the present time.

Mosquitoes are on the way

The attendance at Senior Citizens is on the up-swing and so is the lunch gang. Thursday it took five of them to look after the troupe. They were Blanche Reid, Fanny Kane, Lily Key Senior, Blanche David, and I think one other. Sorry Sister but I guess I'm like the absent minded fellow who drowned because he jumped into the water forgetting that he could not swim.

On March 4th we meet usual in the afternoon but that same evening we are invited to Canadian Forces Base, Trenton, for entertainment there at 8 p.m. If you decide to go, please let the President know so that transportation can be arranged.

D.R Stewart was well known

Funeral services for Donald Robertson Stewart, 92, minister of Jehovah's Witnesses for 63 years, were held Thursday afternoon at the Hogle Funeral Home in Stirling.

Born in Boulter, Ontario, May 20, 1878, Mr. Stewart went to British Columbia in 1908 as a young man intending to make enough money on the hazardous river lumber drives to return to Hastings County and buy the best farm in Carlow Township. His money-making plans were successful and he returned with enough money that he could have accomplished his original purpose. However, he brought back from British Columbia something

which changed his mind about buying the farm and altered the entire course of his life.

While driving logs on the Fraser River he met Warren Neelands, a fellow worker whose way of life had little in common with the usual drinking, gambling and fighting of the river men. Impressed by his

conduct, Mr. Stewart enquired into the man's reasons for being different. The two men would often separate from the rest of the camp to discuss the Bible together, seated on a stump in the B. C. forest.

Within three months Mr. Stewart's decision was made. He immediately entered the full-

time ministry as a "colporteur" and he, along with Mr. Neelands, travelled the B. C. mainland and Vancouver Island distributing publications of the Watchtower Bible and Tract Society.

Later he returned to Ontario where he "colporteur" with A. H. Macmillan who later served at the world headquarters of

Jehovah's Witnesses in Brooklyn, New York. He arranged and assisted showings of "The Photo-Drama of Creation", the pioneer of audio-visual presentations, to large audiences across eastern Ontario.

In 1915, in Haliburton, Ontario, Mr. Stewart married the former Irene Stewart.

When the financial obligations of raising a growing family, six in all, necessitated his leaving the full-time ministry to take secular work, he continued in the part-time ministry as a "congregation publisher".

Thirty years later, Mr. Stewart resumed his full-time ministry at the age of 68. He work-

ed first in Stirling, then for 10 years in Toronto, and then again in the Stirling area where he lived his final years with his daughter, Mrs. John Orser, residing at Oak Lake. He was still able to call from door to door until his 89th year.

Mr. Stewart was predeceased by his wife in 1936, son, Vernon,

in 1928, and daughter, Donalds, in 1934. He is survived by his son, Paul, of Kingston, daughter, Aylene (Mrs. Meredith Dow) of Sullivan, Indiana, daughter, Vera (Mrs. Hugh George) of Chicago, Illinois, and daughter, Ollie (Mrs. John Orser) of Stirling, as well as five grandchildren and 10 great-grandchildren.

Not Surprising

Nobody should be surprised that some parts of Hastings County
have apparently lost interest in what is taking place in the field
of education.

Prior to the formation in recent years of the gigantic boards
of education, there was general criticism that such a move would
have the result of leaving many small communities remote from
the boards.

Last week, the truth of this prediction was brought into focus
as a trustee from the northern part of this county told the board
that the citizens in the district he represents have become apathetic
about education affairs.

How could it be otherwise? For decades, the people have been
running their own school affairs and then suddenly, without anyone's
consent, the local boards are dissolved and the authority placed
in the hands of a giant board which meets in a city 85 miles away.
Some members of the board apparently feel that the weekly
newspapers in the county have been lax in telling the board's
story. Praise is heaped on the Belleville daily which writes
reams of board news.

Critics on the board should know that small community news-
papers do not have the resources to staff meetings which occur
once or twice every month in far off centres. The dailies do
have the means, and yet they are the ones who have the shortest
distance to travel to meetings, since board offices are always
located in the biggest centres. From Stirling, a long distance
call is required even to contact the board office.

We are somewhat skeptical of the complaint voiced by one
trustee that one weekly newspaper had refused to print news
items submitted to it. We have never heard of a newspaper in
this area refusing to print genuine, on-time news, although propa-
ganda rarely finds its way into print.

As for the proposed newsletter to be sent out by the board to
the county weeklies, its worth remains to be seen. It would not
be fair to make a judgment until we see it.
But the board members should not deceive themselves into think-
ing any kind of news releases will regain the interest of people
living in communities far removed by distance from the ruling
authority. Unfortunately, this is part of the price Ontario paid
for the creation of the big boards.

The Royal Canadian Legion public speaking competition was sponsored jointly by the Belleville Branches 99 and 587 ex-services clubs.

The judges for the competition were Everett Fairman, Phil Acorn, and Mrs. Alvin Ellis. Sandra also won first in the zone finals of the Ontario Hydro speaking competition held at Sir Oliver Churchill School on Friday night. Awards and a sum of money went to the Centennial Senior Band for their proficiency in playing at Friday night's Festival of Stars. The students are able to submit their choice of books they wish the Library to purchase to the two librarians of Centennial, Mrs. J. L. Lambert and Mrs. Philip Boyko. The books all lie in the interest of high school students with the agencies handling many publishing names from other parts of Canada, United States and Britain.

Contractor closes Stirling firm to become Sudbury inspector

Claude Trumble, a building contractor in Stirling for the last 11 years, will be closing the business at the end of this month to begin a new career in the city of Sudbury.

Mr. Trumble, who served three years on Stirling council, before stepping down in December, has been appointed building inspector for the Northern Ontario city. He will assume his new duties about April 1.

The motor vehicle licence bureau and the depot for beer bottle returns will continue to be operated at the same location in the Stirling PL Lumber building, but under new management. Announcement concerning the new management has been delayed, pending confirmation.

A native of Marmora, Mr. Trumble came to Stirling in 1957. Three years later, he opened the firm of Claude Trumble

Construction Ltd., which specialized in remodelling and renovation work.

At the peak of operations, the firm employed 32 men, although the number on the payroll was 11 last year. Mr. Trumble said. A major addition to Edward St. Manor, completed last fall, was one of the firm's largest jobs. During his time on council, Mr. Trumble served as chairman of the streets committee

in 1970 and chairman of the property committee in 1968-69.

He also served as a member of the recreation, arena and cemetery committees. A member of the Lower Trent Region Conservation Authority since its inception three and a half years ago, he was the chairman of the Marmora, Stirling, and Clitheroe committees. Councillor Edward Klompfner was appointed by village council last week to succeed him on the authority.

Mr. Trumble, a licensed pilot, is a member of the Oak Hills and the Prince Edward Flying Clubs.

Mr. and Mrs. Trumble are members of St. Paul's United Church.

Mr. Trumble is a member and ardent supporter of the Stirling Curling Club. In Sudbury, Mr. Trumble will have the responsibility for enforcing the building code in a city of 90,000 people. Metropolitan Sudbury takes in a population of 150,000.

The Trumbles have three children, Brenda, 12, Brian, 8, and Sherrie, 3. The family plans to move to Sudbury in July or August.

Conservation Day Thursday

Thursday, March 11 has been designated as Conservation Day by the Lower Trent Region Conservation Authority.

Midgets capture series

By THOM REYNOLDS

In the third game of the Midget quarter finals Monday night at Millbrook, Stirling defeated the home team 7-5 and won the series three games to none.

Ron Andrews, Art Reid and Don Campbell each rapped in two goals for Stirling while Doug Morton chipped in with a single.

At present it is not definite who the Midgets will meet next but Bobcaygeon and Schomberg are playing a best 3 out of 5 series. The first game was played in Bobcaygeon and Schomberg edged Bobcaygeon 4 to 3. According to O.M.H.A., officials in Toronto it will be a very close series. Their series will be finished by this weekend after which the winner will provide opposition for the Midget Club.

For all the rest of the Midget playoff games out of town, there will be a special bus which will leave from the parking lot at St. Paul's United Church. Tickets are available from Clitheroe Harrop at 395-2625 or Murray Wannamaker at 395-2656.

Well, we had snow one more time and, in spite of bad weather, there is always a good turnout at Senior Citizens...and you can count on that.

Lloyd Dufoe and Richie Green (two of our popular players) were celebrating birthday anniversaries. Their wives, Florence and Flossie, presented each with a lovely flaming birthday cake. Others helping with the lunch were Edith Bradshaw and Martha Wood.

Owing to the bad roads, the trip to Trent was called off. Now the pun....

The reason one's nose is in the middle of the face is because it's the scenter.

A young shaver says, "I play piano by ear."

A non-shaver says, "That's nothing, I fiddle with my whiskers."

The three little pigs left home because they thought their father was an awful bore.

Stirling to benefit from surplus

The village of Stirling will be credited with \$10,915 against the 1971 levy imposed by the Hastings board of education.

This is the amount of elementary school surplus found to belong to Stirling by a committee of arbitrators. The report was released recently.

The report listed with village with a deficit of \$1,461 insofar as secondary school matters were concerned.

However, the Ontario Department of Education has agreed to pick up one-third of the amount of this deficit this year, with the remaining two-thirds left on the board books in the hope that further department of education grants will be forthcoming to take care of the remainder.

The municipality will be responsible, therefore, only for paying interest at the rate of seven and a half per cent on the deficit, standing portion of the deficit.

The committee of arbitrators was appointed following the formation of the county school board which replaced the local boards.

Donald Williams, chairman of the board of education, and a resident of Stirling, said Stirling was in a very fortunate position to have such a large credit against its 1971 education requisition.

He also said that the decision of the province to take care of the deficits came as a happy surprise to the school board.

Mr. Morgan has been in failing health for the past year. He was a retired lockmaster, employed by the Department of the Interior, and was a member of Christ Church, Branch 103 of the Royal Canadian Legion, Campbellford, and the Golden Rule Lodge, No. 126, Campbellford.

Institution announced for Picton

Details of a community-type residential centre for the mentally retarded at the former Canadian Forces Base near Picton, were announced recently by the Honourable Thomas L. Wells, Ontario Minister of Health.

Residents will live in a village-like setting which will include the base's married quarters.

Mr. Wells described the new facility, to be called Prince Edward Heights, as "one of the most progressive of its kind in North America."

His comment was made in a joint announcement with the Honourable J. R. Simonett whose Department of Public Works will spend an initial \$2.2 million in renovation and conversion of the base.

Prince Edward Heights will be developed over the next three years and eventually will accommodate up to 600 residents. The first residents will be transferred from the Rideau Regional Hospital School at Smith's Falls this year.

A staff of 450 will be needed to operate the new training centre and as many as possible will be hired in the Picton area, Mr. Wells said.

Sixty-five houses have been allocated for 300 moderately and mildly retarded school children, as well as adults who can be rehabilitated. Larger, centralized living quarters will be provided.

"The emphasis will be placed on providing a home-like environment for residents, giving them many of the same opportunities and life experiences enjoyed by people of the larger community," Mr. Wells said.

"Our new facility at Picton will enable us to put this thinking into practice more effectively than anywhere else on the continent."

UNIVERSITY WOMEN HOLD MEETING

The Canadian Federation of University Women of Belleville and District had as their guest speaker Dr. Joan Bronskill, who spoke on the anti-pollution role of the Belleville Research Institute. She stated that the research program was directed towards finding non-polluting alternatives to conventional pesticides and herbicides for controlling insect pests and weeds. Some alternative methods are now in use; others are being developed.

Dr. Bronskill used slides to illustrate her description of alternative methods of pest and weed control. The methods included the propagation, introduction and release of predators, parasites and pathogens of insect pests. The praying mantid, and diseases of the cabbage looper were cited as examples. The uses of sex attractants produced by moths, and hormones, i.e. chemicals produced by the insects themselves were described. Silica formulations may be applied to crop plants to protect them by interfering with the egg laying or feeding of a pest, and anti-tanning agents may be used to interfere with pest metabolism.

Research and development work being conducted by the Research Branch Canada Department of Agriculture at Belleville and elsewhere on pest control will reduce the need for persistent chemicals on field crops.

HAVE ONE OF YOUR OWN

Greenmore Star "Please encourage people to subscribe for a newspaper for themselves and discourage borrowing the neighbors," was a plea put forth by a local lady to the editor last week. She claimed a considerable nuisance was occasioned when she wanted to look something up or the paper had gone from the home before being completely read.

She went on to say that she had a belief in the "love thy neighbor" theme but the matter of lending a newspaper was a little too much.

It makes for a reminder of the riddle, "why is a newspaper like a woman?"

It is because every man should have his own and not run after his neighbor's.

The Right Decision

Stirling village council made a sensible decision last week when it turned down a request for a donation in support of the Santa parade held annually in Belleville.

Promoters in the city certainly ought not to expect financial support from public funds for a program that cannot possibly bring any benefit to Stirling taxpayers.

It is no secret that parades held prior to Christmas are organized solely for the purpose of attracting large crowds of people to a community. The strategy is that the spectators will spend their money in the stores before and after the parade, justifying the expense of the event.

However, doubt has arisen in the minds of many merchants in recent years as to whether this purpose actually is achieved by a parade. Arguments will continue on both sides.

There is no question that a parade, with its bands, floats and marchers, evokes a great deal of community pride. For that reason, if for none other, we would not like to see the end of Santa parades (or others for that matter).

But, would it not be better if a Santa parade were more a celebration of an event or season and less a commercial undertaking?

If such a philosophy were adopted, unpopular as it might seem in these times, we believe there would be no need to dip into the public purse to cover expenses. Organizers and entrants would participate with no thought of being paid for their services. And children would attend for the sheer pleasure of seeing a yearly spectacle, rather than to collect their annual bag of unneeded goodies.

Admittedly, it is a bit early to be getting concerned about this year's Christmas activities. However, this is a matter worth thinking about before another Yule season rolls around.

Sponsor free concert in Trenton

The Baha'is of Ontario are sponsoring a free concert featuring JALAL at the Trenton Community Gardens on Thursday, March 11, at 8 p.m. Two years ago the rock musicians, then known as the Mozart Group, played in different parts of Can-

ada. The group went through many changes in the intervening time and is now musically far removed from the days of acid rock. The change has been due to something that seems out of place in today's world, and that something is religion.

CENTENNIAL REPORT

A report by Thom Reynolds from Centennial Secondary School, Palmer Road, Belleville

On Thursday of last week the members of the Belleville Theatre Guild presented a short assembly program to the students of Centennial on their production which they will present in the Eastern Ontario Drama League Festival all this week at Centennial's Auditorium. The Belleville Theatre Guild is composed of local people who are interested in stage acting as a hobby. Adjudicator for the week will be Mme. Jeanne Beaubeau of Montreal. Plays will begin tonight with the Peterborough Theatre Guild. Tomorrow night the Belleville Theatre Guild will present "The Lion in Winter" by James Goldman and directed by Lawrence A. Ewashen. The

Cornwall Little Theatre will present their production on Friday night and the Camelot Little Theatre on Saturday night along with award ceremonies. Tickets for each night are \$1.00 for students and \$2.00 for Adults.

The Mediterranean students have returned home after their two week visit to the Mediterranean region. Telegraph wires were received from the teachers and letters from the students which indicated they had enjoyed themselves very much on the case.

Due to examinations next week, the next report will be on March 24th when the Return of Mediterranean '71 Students will be featured.

Letter to the editor

So brave souls! Make your decision. Was I right or away out of line? Should you judge that I am wrong, you may have the land free of charge. Otherwise the decision I made in the beginning still holds, no less or

lose all. You see, citizens, there is a slight matter of principle involved. Now! What of the future? Who knows? Who cares? E. Copeland

In a roundabout way I was led to believe that I would receive that amount which I have since insisted as my price. Ever since, in a roundabout way, I have been made promises and promises. Only one member of the 1971 council had the decency to listen to my side of the story, or showed the least interest in the matter whatever. (Thank you, one member, for going to bat.)

Now! My actions have been called ridiculous. However, I have asked the opinion of many so called stable citizens for their honest opinion, if I was out of line in my demands. The result of which, by their answers, I considered they thought not. (Don't worry as I do not mention any names.)

It has been a long story of disgust, destruction and contempt. The latest word via the grapevine (of course) is that not until the road is finished shall I get a settlement.

"Whoo! Boys, down goes your credit rating!" They do not forget to remind me that I had a lot filled up. So what? Many others did also. How much are they contributing to the Just Cause?

I was assured by the contractors, when I thanked them profusely for their consideration, that the favour was mutual. They were anxious to get rid of useless fill. In fact, they saved themselves a great deal of money, I am sure.

The responsibility of the village was to purchase the land involved. All the benefits donated cheerfully by the contractor, were at no expense to the village whatsoever.

Someone has said "If you believe in something, put your money where your mouth is."

THIS IS THE END!

(WE'RE GOING OUT OF BUSINESS)

It is with regret that I have resigned from the building business, but circumstances have altered my entire future life. I will be leaving this area in the near future and with my family, will be moving to the city of Sudbury.

I have enjoyed my relatively short time as a limited company (three years) 11 years in all as building contractor, with other companies as carpenter and superintendent, with a total of 23 years experience in the building field.

One might say that I am going to greener pastures although I understand that they DO GROW RYE ON THE ROCKS AT INCO. Be as it may, I have accepted a position with the city of Sudbury and look forward to my new future in a comparatively medium sized city.

According to many people here, there are people I should know and I look forward to renewing our friendship and of course making many new friends.

Finally, I would be remiss if I did not congratulate the Stirling Rotary Club, and other service organizations, on their good work in this area and will always be working. Please help.

I will be very happy to see any of you, if and when you come to Sudbury. Thank you.

Meeting with Mrs. William West, convenor, she chose "The Village of Stirling" as the topic for this program. She gave a run-down of happenings since its incorporation in 1846, with a small number of stores, 3 mills and 4 taverns.

Mrs. Tanner, Mrs. Chapman, and Mrs. Aythart read about Stirling in 1871. Edward Fiddler came here from Stirlingshire, Scotland just on an adventurous trip. While here, he established three mills - one at Wellman's and one at Trenton.

Mrs. Margaret Ward and Mrs. Ashley Brooks, gave the history of glass. The Bottle industry began in England, in the year 1637, the wooden key was used, then the glass containers came, and now plastic is the popular container, as it is 80% lighter.

Mrs. A. Wannamaker gave a reading entitled "Faithful Jim".

Mrs. David brought to our attention some local newspapers dated 1889, and here are some interesting prices in comparison to today's:

Chicken - 2 lb. for 25¢
Lard - 12 to 15¢ per lb.
Cheese 93/4¢ per lb.
sold by cheeseboard
Beef - 9 to 12¢ per lb.
Pork - 7 to 8¢ per lb.
Bacon - 11¢ per lb.
Wheat - \$1.00 per bushel

Stirling's wardens were Dr. Boulter, W. S. Martin, J. W. Faulkner, W. R. Mather, William C. West and Donald Rodgers.

A delicious lunch was served by Miss L. Williams, Mrs. Chapman and Mrs. Ira David. Thanks was expressed by Mrs. Clancy for the enjoyable afternoon program, and lunch, also to Mrs. David for opening her home.

320-LB. CALVES IN 4 MONTHS!

Two new calf rations - new, Magic Formula Purina Nursing Chow and new Purina Startena - can help you raise big, husky calves months earlier than slow-poke sisters fed other ways.

New Nursing Chow contains extra energy and more digestible proteins that help get calves off to a fast, healthy start. It mixes in seconds, won't settle out, flows through nipple pails and automatics without clogging.

New Calf Startena is higher in energy, lower in fiber, and more digestible than ever before. It keeps calves growing and gaining so they're big enough to breed at 12 to 15 months.

Call or visit us whenever you have calves to raise. And feed them the Purina way... on new Purina Nursing Chow and new Calf Startena.

Guide News The Stirling Guides had a very successful snowmobile party last Tuesday evening. The girls gathered at the Elaine shoe factory and travelled from there over field and stream, bump and hollow all the way to Harold to the home of Mr. and Mrs. Gordon Bailey. Here, they enjoyed hot dogs and hot chocolate and took the opportunity to warm any chilly fingers, toes or noses. Twelve drivers transported the Guides on their machines and sleighs.

New works programs explained to council

A letter was presented to council at Monday night's meeting outlining two programs pursued by the provincial government to help fight unemployment. The first program is the Provincial Municipal Employment Incentive Program, by which the province will reimburse 100% of the cost of capital works programs carried out by the municipality to a maximum of \$1 per capita.

The second program is the Federal Provincial Special Development Program, by which the government loans up to \$2.50 per capita for projects carried out prior to March 31, 1972.

The first program, using the official population of 1474 for

Stirling, could mean \$1474 and the second program could mean \$3685, a maximum of \$5159, provided all the terms of the programs are met.

Reeve Robert Anderson stated that in his opinion these programs were to be applied only against new capital works projects.

Council withholds approval of lottery

How would you like to win \$100,000? That is the first prize offered in a lottery to be held between May 1 and October 16, by the Co-ordinated Arts Services.

Some of the more noteworthy members of the CAS are the Toronto Symphony, the Canadian

Opera Company, the National Ballet, and the Stratford Shakespearean Arts Festival.

A letter from Norman Walden, executive director of the co-ordinated Arts Services, was presented to council at Monday night's meeting. Mr. Walden requested permission to sell tickets for the CAS lottery in the village. The tickets for the lottery approved by the provincial government, will be sold for \$2 each, and total value of the prizes will be \$250,000.

The request was tabled to await further information on how the CAS proposes to sell the tickets.

OHC conducts housing survey

The Ontario Housing Corporation, in a letter read to council Monday evening by village clerk W. L. Pollock, explained that the advertisement found elsewhere in this edition of the News-Argus was for collecting information to enable decisions as to details regarding senior citizens' apartments on a rent-geared-to-income basis.

Twelve of the senior citizens' units are under construction at present on Church St. Village council has requested construction of another 12 units.

Previously, the coin wash was owned by Claire Knight, R. R. 3, Stirling.

The Econ-o-wash, located on North St., is equipped with 10 automatic washers.

This event will take place on March 18, at the Royal Canadian Legion, Trenton, commencing at 8 p.m. All interested citizens are invited to attend.

Crash causes heavy damage

A considerable amount of property damage was done when two vehicles collided on Front St., near the front of the Stirling municipal building, on Sunday afternoon.

Provincial police from Belleville identified the drivers as Manuel Tschalas, 18, and Paul Richard Chaumon, 30, both of Belleville.

Damage to the Tschalas station wagon was estimated at \$800. An estimate of the damage to the Chaumon car, and details concerning how the accident occurred, were not available from police.

No one was injured in the 3:20 p.m. crash.

Expresses appreciation

A letter from the Stirling Public Library Board and signed by Mrs. Blake Faulkner, was read at Monday night's council meeting.

The letter expressed appreciation of the increase in the grant to the library from \$2000 to \$2400. This grant is approximately 33% of the library's estimated total revenue of \$7350 this year.

Police seminar at Loyalist

Loyalist College in Belleville will be the site of a one-day seminar dealing with the relationship between the police and the public. The seminar, to be held between 8 a.m. and 4 p.m. on Saturday, April 24, will deal with several areas of the role of the police as preservers of law and order.

An invitation to attend this seminar was presented to council Monday evening, and Councillor Douglas Bensley, chairman of the police and fire committee, said that he planned to attend.

Industrial growth sought

The Department of Trade and Development has requested that the council of the village of Stirling complete some forms, outlining the present industrial situation within the village.

These forms, the department claims, will be distributed to development agencies so that industries who are planning to develop will be able to use the information compiled from many municipalities as a starting point.

Reeve Robert Anderson said at Monday's council meeting that one reason why Stirling may have some difficulty attracting industries is a lack of water.

Planning board meets Thursday

A letter was read at Monday night's council meeting announcing a meeting of the Quinte Planning Board.

The meeting is scheduled for 7:30 on March 18 at the Sidney Township Hall.

The letter, from J. B. Harder, clerk of the Township of Sidney, stated that E. A. Gomme of the Department of Municipal Affairs, may be present at the meeting.

Members representing Stirling on the Quinte Planning Board are Reeve Robert Anderson and W. Rodgers.

These men were ratified in their positions by another letter, also presented at Monday night's meeting. The letter, from the Minister of Municipal Affairs, stated that both Reeve Anderson and Mr. Rodgers were official members of the planning board until January 1, 1972.

The stage band will be the Country Stylemen, Mac Graham, Al Weese, Bill Pearson, fiddler

Roger LaForte and Robert Pearson.

Tentatively scheduled talent includes Ken and Harvey Couch, Ken Morrow, Bill and Maurice Bell, Donald Ray and Pat Bule, Roger Snider, Don Walton, Gladys Smith, Cousin Pimble Mearl, Dick Lovering, M.C. from radio station C.J.B.Q., and many others.

All roads lead to Stirling for the Fire Department's great Muscular Dystrophy Show. Tickets are \$1.00. If you can't come, buy a ticket anyway. It will help a worthy cause.

"I just can't wait to be back in Stirling once again to sing for all those fine people," said Mr. Wall.

Michael loves to sing about Newfoundland and will be doing several Newfoundland songs on the show.

Direct distance dialing explained

Robert Carleton, area manager for Bell Canada, has asked the News-Argus to make it clear that Nov. 14 heralds the introduction of Direct Distance Dialing for customers on the Stirling exchange.

Direct Distance Dialing, he emphasized, is not to be confused with toll-free dialing which eventually will hook up Stirling exchange with Frankford and Belleville.

Direct Distance Dialing lets a caller phone a long distance number without going through the operator. He simply dials the desired number, rather than giving it to an operator.

Mr. Carleton said no definite date has been set for the introduction of toll-free calling in the Stirling-Belleville-Frankford area, although the move has been

contemplated for some time. A survey showed overwhelming support for the proposed move

Highways grant

A letter was presented to Stirling council at Monday evening's meeting from the Minister of Highways, stating that the grant to the village of Stirling for road expenditures during the year 1970 was \$11,180.

The letter also stated that although this amount was greater than the grant normally paid to the village by bylaw, the increased sum was not to be interpreted as a sign that over-expenditures were in order.

Ole Man River 86 years young

On Sunday, March 14, Mr. and Mrs. Oscar Merrick were treated a surprise dinner party. Ole Man River for 86 years young.

One might call Ross Hoard Ole Man River for he has been rolling along. Ross celebrated a birthday at Senior Citizens on Thursday and although 86 years of age, he could easily pass as 70.

Robert and James, his two sons and their wives, Lois and Mary, along with many grandchildren, friends and neighbors, ran our attendance to over 60.

Lois and Mary served a lovely lunch, including a huge birthday cake made by Mary. Ross expressed his thanks for a very happy day.

This week, stick a quarter in your pocket and come at 2 p.m., for we will be playing progressive euchre.

We were happy to welcome Lillian Heasman back from the sunny south, and she has ever got a lovely time.

Church Note: Linda went to church for the first time. As she was leaving with her parents, the minister asked how she liked church.

"I liked the music," she replied. "But the commercial was too long."

Mother: Were you a good girl at church today, Susie?

Susie: I sure was. A nice man offered me a whole plate full of money and I said "No, Thank You."

STIRLING HORTICULTURAL SOCIETY

FLOWER ARRANGEMENT - It is easier to get a good result with garden flowers than with those bought from the florist. That is in part due to the fact that the seller of flowers tends to discard flowers with curving irregular stems, preferring neat bunches of a dozen blooms with stems of equal length. The result is seldom artistic; it is more of a grower's exhibit than a work of art.

Was 1970 a good year - or a bad one? By now you certainly should know and be able to prove it.

I mean that you should have all the necessary records and paper work available in order to prepare an accurate and complete income tax report.

If you've been keeping such records of your financial transactions, expenses and deductions throughout the year, there's no problem as long as you still have them and understand them. If not, better do some checking right now while you still have some time.

Try to gather up all the records you can find regarding your personal financial situation during the past year. What you can't find, you may be able to obtain duplicate copies of if you act now.

Did you buy or sell real property, earn interest on savings, record gains or losses on investments? All these transactions and more need to be documented and if you wait until the last minute, you may be too late.

You may be too late to save a considerable amount of money in legitimate income tax deductions by having all your records available to you.

After you've scurried around assembling your 1970 records, be sure not to let the same thing

DOLLARS AND GOOD SENSE

happen to you next year. Keep your important records and papers in a safe, secure place where you and other members of your family can find them without unnecessary delay.

Investigate the possibilities of obtaining a safe deposit box at your bank or savings and loan association. Keep routine records in a good safe place in your home.

You don't have to become a master bookkeeper, but you should be able to keep track of your affairs. Without these records, you could lose a lot of money each year.

Now's the time to check.

Each year as income tax returns are filed, hundreds of dollars are lost because tax payers fail to take advantage of the many legitimate deductions and exemptions they are entitled to but often are unaware of. Your return is something that should be given serious attention - starting today.

Even before you begin to fill in your actual tax forms, start reviewing your 1970 bills and receipts. Make a list of all your tax deductible expenses. Find out if you would be better off by itemizing your various deductions, or by taking the standard allowances.

U. S. taxpayers can deduct a wide range of expenses, starting with medical care and medical car insurance premiums. State and local retail sales, gasoline, and income taxes, real estate taxes and personal property taxes can also be deducted. Add to that interest paid on your mortgage or personal note, charitable contributions, certain casualty losses and thefts, expenses for education, job tools and supplies, union dues and even certain gambling losses and you could have a sizable total of legitimate deductions.

Canadian taxpayers can deduct their pension plan contributions, membership dues, student tuition fees, alimony or separation payments, charitable donations and medical expenses. Charitable deductions, however, are limited to 10% of net income but the excess may be carried over for a year. Medical expenses in excess of 3% of net income can be deducted, or the standard \$100 can be claimed.

Complete your return using the standard deductions and again by using your own itemized deductions and see which saves you the most money - but don't wait until the last few days. Plan to start now and spend some time at it and if you run into special problems, you can seek help, either from your nearest tax office or from a private tax firm, before the deadline befalls you. U. S. taxpayers have until April 15, and in Canada, the deadline for filing is April 30.

Dear Mr. Martin:

As I'm sure you are aware, a large percentage of the female population is self-supporting. As a member of that group, I find that women tend to be financially unorganized. Always living beyond their means on Monday and starving to death on Friday. I find that women on the whole are not concerned with interest, profit sharing and all the other niceties benefiting an individual who handles their money properly. Do you consider this an inherent female characteristic that was bestowed upon us at birth or is there some sound, uncomplicated, not too time consuming method to be adopted?

E.K.

I'm sure that many women are self-supporting, although I wouldn't say how large the percentage is. As far as being financially unorganized, I don't think that women generally are any more un-organized financially than men.

Many women handle the family finances and do a very good job at it. Single women as well as single men, however, seem to look at budgets with a much different view than do their married counterparts.

There is no reason why this should be the case. As I've said before, budgets are not a complicated thing. You don't have to be a bookkeeper, and worry about profit sharing and other seemingly complicated financial matters.

St. James CWL Holds Meeting

Mrs. S. Meeks, who is filling in for Miss Alice O'Donnell who is vacationing in Florida for several weeks, took the roll call and read the minutes of the last meeting. There were eight members and two visitors present for the meeting.

Mrs. J. Doran gave the treasurer's report and a full report on the Barn Sale at Hord's Station, also the Scout and Cub League and the St. James' Fair.

Thanks were given to the ladies who worked and donated food to make the banquet a success.

The C.W.L. will cater to another barn sale in September. Final plans were made for the St. Patrick's Euchre to be held in the Frankford Parish Hall on March 15.

MARSH WORLD by ANGUS SHORT Ducks Unlimited

CRAYFISH
Crayfish live in marshes, lake borders, rivers and streams, generally in shallow water. They range in size from 3/4" to 5 inches in length. Most active in early morning, evening and at night, they move about slowly by use of their slender legs. When alarmed they dart swiftly backward by depressing and fanning the tail. Their claws are used to catch and tear up prey. They hide in burrows beneath stones or under the sand or mud bottom. Crayfish are eaten by grebes, wading birds, gulls, fish, turtles, frogs, raccoons, otter, and mink.

A FORUM ABOUT MATURE WOMEN

Have you a problem as a mature woman, or with one? Write to Margaret Brookfield, Information Center on the Mature Woman, 3 West 47th Street, New York, N.Y., 10019.

Our Readers Write (Here's another fine letter for Mrs. T. R. of Burley, Idaho, who has stay-at-home problems. She wrote recently asking for suggestions about getting more out of life.)

Dear Margaret Brookfield: These are the things I do: first, I read quite a bit, a variety of things, biography, psychology, some novels, how-to-do-it books, magazines and newspapers. I also do crossword puzzles, some painting and letter writing. Then there's sewing, crocheting and knitting (rugs, suits, afghans, pillows, toys, pot-holders, etc.). I also make quilts and do embroidery. In addition to that, there's baking, candy-making and trying out new recipes. I watch the magazines and papers for new ideas of things that would be interesting. With stereo and television and housework, I'm busy all the time and enjoying it, too. I have a bad hip which gives me problems, but when I have my annual check-up this week, my doctor told me that I'm fortunate because I can find so many things to do that interest me. He said so many people can't. I can, because I try.

S.C., Portland, Ore. Wonder Drug?

Dear Margaret Brookfield: I have been hearing a lot about hormone treatments for women in their menopause. Is this some kind of new wonder drug they're using? I am now 46 and starting to have symptoms.

L.M., Carthage, Tex.

Dear L.M.: Elizabeth Parker, M.D., in her book, "The Seven Ages of Women," provides a direct answer to your question. Dr. Parker writes: "The hormone that relieves the symptoms of menopause is not one of the won-

der drugs. It is not a drug at all. It is a chemical substance that a woman's body has been accustomed to having all her life. It is not just any hormone. It is the specific hormone, estrogen." These hormones are not used to treat a disease, adds Dr. Parker, "but to help the woman maintain the stability of her personality and physical well-being." This form of treatment that she describes is known as estrogen replacement therapy. It has been in use for more than 30 years on prescription from physicians. Why not consult your own doctor about this in connection with the symptoms you mention?

*** Suburban Flirt

Dear Margaret Brookfield: We live in the suburbs and have a next-door neighbor who's 29 and already on her third marriage. Whenever we have people over she always comes around and starts flirting with the men. The funny part is, she flirts only with the ones who are already married. Recently she started concentrating on my husband, who is 47. (I am 45.) The way he acts, I think he's flattered by it. It doesn't seem to be serious yet, but it could be. What makes a woman act that way and what can I do about it?

S.E., Oklahoma City

Dear S.E.: Some women, psychiatrists say, will flirt with a man only to be in competition with another woman. (It's as though they're trying to compete with their mothers for the attention of their fathers.) Meanwhile, the poor guy they go after may receive a temporary ego boost from so much attention, but he's only an unwitting pawn in the game they're playing. His glory is usually very short-lived. Once the competitive man-chaser has won her point, he's generally discarded. For the present, why don't you just sit tight and play it cool? Your husband will probably realize soon enough that any woman with three husbands before the age of 30 is bound to mean trouble.

Letter to the editor

Dear Mr. Kemp:

Heart Month in Canada is now over, and on behalf of the Canadian Heart Fund, Ontario Division, please accept our sincerest appreciation for your co-operation and assistance during our financial campaign in February. Our objective this year was \$1,050,000, and although all returns are not in, we are quite hopeful that our objective will be attained - even surpassed.

Without your willing co-operation in communicating our needs to the public, the Canadian Heart Fund would not be able to express such an outlook.

Heart disease is everyone's problem - and again our thanks for helping us bring to the attention of the public that research should be everyone's responsibility.

With best wishes.

Yours very truly,
CANADIAN HEART FUND

Tourist council meeting here

The Highlands of Hastings Tourist Regional Council held their regular monthly meeting on Thursday evening last in the Council Chamber at Stirling.

A meeting with Madawaska Valley Tourist Region, to talk over mutual problems, was discussed as well as a seminar for Tourist Operators to be held in March or April. It was decided to hold the Annual Meeting and Dinner at the Skyway Lounge in Deseronto on April 21st. All members to be invited to bring their wives.

The Council has purchased two snow skimmers for first aid purposes on snowmobile trails for summer Motorcycle trails. Information with regard to the use of Snowmobile Trails for summer Motorcycle touring was requested from Toronto. The meeting was advised that this would probably eventually be accomplished with trails from Bon Echo Park to Mayo Lake hooking up to Algonquin Park, but at the present time there is no provision for it.

Mr. George Ellsworth, general manager, read letters of thanks from the Trenton Kiwanis Club and Tweed Chamber of Commerce thanking the Tourist Region for the advertising program set up by the Highlands of Hastings Tourist Region for Winter Carnival in the area.

It was decided to retain the Harry Dulmage Associates Limited advertising agency in Belleville to produce the 1971 brochures and Tourist pocket guide or business directory. Both Belleville and Trenton attractions are prominently displayed in this new four color brochure.

This will happen in the twinkling of an eye and all shall be changed (1 Cor. 15: 51). He is coming for a called out people, a chosen people. And it should be the desire of each Christian to work and to win souls for the Kingdom of God, she said.

The Youngs have two children, Vanessa, 3 1/2 years and Clark, nine months.

Discussion of business followed. Parcels are to be packed, quilts are to be finished and literature is to be mailed.

Prayer requests were taken and a time of prayer followed, each lady taking part on behalf of missionaries and needs in the home land. Mrs. Alma Donnan closed the meeting.

As told by Denis Lapalme who was once a crippled child.

I'm sure glad to be able to thank everyone for the help they give me and crippled children at Easter Seal time. Three years ago I was in a bad accident. A train ran over my legs, but I'm okay now, even though I wear artificial legs. I can play hockey, ride a bike, climb trees and play ball.

I'm this years Timmy and its me you see running on the new Easter Seal cheques.

Will you please send in your donations to help make the other crippled children better, like me. I thank very much.

Stirling Centreman Rob Arbuckle is caught between two Schomberg players at the side of the Schomberg goal crease during

cial semi-final series by dumping Stirling in three straight. News-Argus Photo.

A ROUND TABLE DISCUSSION

A meeting of the Stirling Community School Activities Committee was held in the library of the Junior School last Thursday

evening. Several members of the community were invited to attend this particular meeting to discuss past and future activities.

In addition, the student council has been holding movie shows at the Junior School auditorium on a once a month basis, and sometimes more often than that. As many as 300 persons have attended on a Saturday.

Community school program has weekly attendance of 165

An average of 165 Stirling and area residents have been taking advantage of the Community School program held nearly every day of the week at Stirling Public Schools.

This was revealed Thursday night by Jack Weatherell, chairman of the Community Schools Committee, during a meeting at the Junior Public School.

With the co-operation of the Hastings County board of education, the community school program came into being here last fall.

After studying the results of a survey taken, the Stirling committee decided to offer four activities: Sewing, woodworking and sheet metal, adult, and teenage

programs. Since that time, two more programs have been added to the list - a children's drama club and a weightlifting class.

In addition, the student council has been holding movie shows at the Junior School auditorium on a once a month basis, and sometimes more often than that. As many as 300 persons have attended on a Saturday.

It is expected that a square dance group will be formed in the future, possibly in the fall, with a qualified caller available.

The committee also is looking at the possibility of providing some type of program that would be of interest to young

people in their late teens and older. Some members felt this could best be arranged through the young people's groups in the various local churches. No action was taken in respect to this matter. It is hoped that a survey can be taken to determine what sort of program, if any, the young people themselves would like.

Mr. Weatherell emphasized that, under the Community School program, local school facilities are available to any responsible group free of charge, provided the function is not being held in order to make money for the particular organization, and it is at a time when a Junior is normally on duty. (In Stirling, a Junior is on duty each evening until 11 p.m., the group was told).

To date, the community school activities have run with no fees charged to the participants and the committee would like to keep it that way. All instructors have volunteered their services.

As the public asks for further programs in the hours after regular classes, the committee hopes to be able to provide them. It is all part of a plan to put the schools, which are owned by the people, at the disposal of the community as a whole. In Stirling, the idea seems to have been well received.

Successful students in music

The following students of Mrs. Harold Elliott, ATCM, RMT, were successful in the mid-winter piano examinations of the Royal Conservatory of Music of Toronto.

All who tried the examinations were successful.

New secondary school at Bayside

A new school will be built for a hopeful opening in September of this year at Bayside. The area taken in by the school will be south of the 5th concession of Sidney and west of Montrose Road.

The "open-space" school will have an area of open space for each subject taught in the school. The English Department for example will not have individual classrooms but one open area with classes separated by a visual partition. The other name, composite school is given to any school that gives an Academic Business and Technical education to the student. Total enrolment at the school will be approximately 725 for grades 9, 10 and 11 with 230 students coming from the Centennial school area.

The Bayside school is a new field of building schools and is one of seven in the province. One of the first schools built in this style was the A.Y. Jackson school which is for grades 11, 12, and 13 in North York.

Some disadvantages can be seen by educators such as the noise factor which possibly can be alleviated by special acoustic ceilings and floor carpets. Students and teachers alike will have to get use of the open area for teaching and learning. Advantages of this building structure and style of teaching can also be seen with the use of all facilities of one department and the open-space areas providing different size groups for teaching from a small seminar group to a large lecture or film group. The languages such as the new addition, Greek, will be taught in a thematic approach with one teacher handling the language while the art teacher would teach the art of Greece and the history teacher provide instruction in the history of Greece. All open space subject areas will converge on the double storey resource centre.

The principal of the school is L.D. Read and the vice-principal is D. Bell who is presently the vice-principal of Centennial Secondary School. In speaking with Mr. Bell recently he told me that there was 90% of the school structure still to be completed and that a September opening seems unlikely. The students would then have to work shift periods with Trenton High School. Before the students can move into the Bayside school at least 50% of the building must be completed.

Beginning on the weekend of March 27, 1971, the Moira River Conservation Authority will again be hosting its annual maple sugar bush demonstration and pancake festival. The program was established four years ago largely as an educational venture for Grade 4 children from area schools. A year later the bush was also opened on the weekend for the general public.

The maple bush this year will be that of Charles Irvine, Lot 10, Concession 5, Huntingdon Township (Fuller). Please note that the location of the bush has changed from past years. The Irvine bush is due north of the Moira Community Hall where the pancake festival will be held. The bush will be open from after lunch to 4:30 p.m.

On the weekends of March 27 and 28 and April 3 and 4 the Irvine bush will be open for the public. People are encouraged to come and wander about and view for themselves the way in which maple syrup is produced. Although no formal tours will be conducted, there will be persons on hand to answer questions.

The Crescent Rebekah Lodge of Thomsburg will host the pancake festival again this year at the Moira Community Hall. For \$50 for children or \$1.25 for adults, one can get pancakes smothered in fresh made maple syrup, a slice of home baked ham and coffee, tea or milk. Serving hours are from 11:30 to 5 p.m. The Rebekahs will also have a home baking sale, and will also have maple syrup and products for sale.

Quinte Arts Festival will feature youth

"MOVE IT!!" will open this year's Quinte Arts Festival on April 14 at Centennial Secondary School, Belleville. Renamed Arts fest '71, the festival will feature youth. The youth talent production "MOVE IT!!" will be a variety show case for all types of talent - music, drama, comedy and dance. Auditions will be held at the end of March and are open to Quinte district youth from 13

to 22 years of age. Cash prizes of \$100, \$50 and \$25 are not the only opportunity for the performers. The three judges, James Colbeck, of Ontario Youth Theatre, and Mrs. Jerry Lodge, president of Talent Agents of Canada, and Len Casey, chief of operations at ONTARIO PLACE, are scouting for youthful talent, and "MOVE IT!!" could be the door to a professional career.

Mr. Casey will be looking for a wide variety of talent and there will be no restriction on the number of acts he will take. Except quality. Those chosen will have the chance to perform before audiences of up to 8,000 people this summer at the talent showcase organized for ONTARIO PLACE, the display and entertainment complex being built on a series of islands just off the C.N.E.

Each of the three top winners will be given 15 minutes of paid broadcast time on CJBQ radio.

Roy Higgins, who will write and direct the show sees it as being good entertainment. He is aiming for a fast moving professional show - a show for youth by youth. Those who are chosen for the show after the auditions

will be directed on how to present their act and have the benefit of professional stage lighting, set and effects. Approximately 200 acts will be auditioned on March 29 and 30 at Centennial Secondary School, where "MOVE IT!!" will be produced. Applications are available at all Secondary Schools in the Quinte district, at Shopette and Sam's in Belleville, at Tripp's in Trenton, or by writing to Arts fest '71, Newfoundlander, and Goldie Lee, 13-year-old singing sensation from Paragon records.

Graham Muck, fire chief, reports that the show was the most successful to date, with \$620 raised for Muscular Dystrophy.

The progressive euchre, which for some possibly should be called not so progressive, was well attended on Thursday. There were 10 tables of cards and one of dominoes.

The high lady was Florence Hough and second was Florence MacMullen while Annie Faulkner brought up the rear with a prize.

Our president, Fred Heasman, got high for the men and John Kane was second. The low prize, was won by Lloyd Datoe.

Win or lose, we all had lots of fun, die ole Scribe had his usual tough luck. He thinks sometimes it's harder to get good cards than it is to try to scrape up hot butter from a hot stove with a red-hot knife. Every time the cards were shuffled, he seemed to get a dirty deal.

A lovely lunch was enjoyed and served and supplied by Margaret Fitchett, Jessie Johnson and Bessie Patterson. The president thanked the girls and announced that this week's meeting might be a big day too.

New Planning Board Organizes

Representatives of nine municipalities in the Quinte area Thursday night reaped the benefits of more than two years of labor required to establish a combined board to plan urban and rural development for the townships of Sidney, Thurlow, Brighton and Murray, city of Belleville, town of Trenton and villages of Stirling, Brighton and Frankford.

The inaugural meeting of the Quinte Planning Board saw Sidney reeve Jack Miller Bush elected chairman of the new board, Belleville alderman E.A. Orr, vice-chairman and Belleville and Suburban Planning Board secretary-treasurer Art Jones appointed temporary secretary.

"We've got a big job ahead of us here and all municipalities will have to work together," stated Mr. Bush, addressing the board following his election as chairman.

"There will be very little, if any, growth done outside of the

controlled urban centres and, although the controlled areas, it is the prerogative of the board to lay down some growth patterns. This is easy to do on paper but very hard to implement."

He told the 22 members of the 24 - member board that "we can expect very little growth pattern in the rural areas," but few people have any concept as to the reasons behind these moves.

"We're not discriminating; we're not trying to put anyone out of business, it's simply a matter of planning for the future," he stated.

As to the initial benefits of the plan of this area, Mr. Bush said, "we will not reap much benefit from it . . . but future generations will."

Absent from the meeting were Belleville Mayor J. Russell Scott and Stirling reeve Robert Anderson.

Stirling was represented by former reeve D. W. Rodgers,

Road voucher No. 2, for \$5,326.98, was ordered paid. A \$50.00 grant was given to Stirling Public Library. A by-law to regulate trailer and tourist parks was given its second and third readings and finally passed.

During a special meeting on March 15, 1971, the tender for crushing 1200 cubic yards of gravel by F. S. Coyle Ltd., was accepted.

The tile drainage bylaw, to be advertised for three weeks, and a meeting to give the by-law third reading, will be held on April 19, at 8 p.m.

Council agreed to purchase 150 stacking chairs for the township hall.

The 1971 normal road bylaw, for \$20,000 for construction and \$30,000 for maintenance, was passed.

The clerk was instructed to write to the Board of Transport Commissioners and request they send someone to inspect the proposed public crossing where the CNR crosses concession 4 between Lots 6 and 7.

The next regular meeting will be held on April 5 at 8 p.m.

A Reminder....

How long is it since you really looked at your driver's licence?

Maybe you'd better pull it out and take a good look at the expiry date, registered in the upper right-hand box, right now.

Some motorists get a nasty shock when they produce their licence for a policeman... only to be informed that they're driving on an expired licence and are automatically subject to a fine.

If the licence has been expired for over a year, a driver must take an examination to get a new one.

Note and Comment

Have the powers that be abandoned all thought of putting the
street lights, along the south side of Mill St., back into opera-
tion? It is several weeks now since this section, in downtown
Stirling, lost its lighting along one side of that street.

Commemoration is in order for two civic-minded persons who
will be leaving Stirling to broaden their careers elsewhere.
Bylaw enforcement officer George Rhynsbarger ended his ser-
vice with the village last Friday to enter the ranks of the Ontario
Provincial Police.

During his term with the village, Mr. Rhynsbarger acted with
dignity and competence in a job fraught with criticism and petty
demands.

We wish him well in his new endeavor.
Congratulations also go to former councillor Claude Trumble
who will close out his construction business here later this
month to assume the position of building inspector for the city of
Sudbury.

Mr. Trumble will be missed in various local organizations in
which he has given valuable service.

There is concern in the village over the lack of a resident
law enforcement officer to succeed George Rhynsbarger, whose
resignation took effect Friday.

What troubles many is that no apparent effort has been made
to find a replacement for him.
It is to be hoped the village council will not let this situation
slide indefinitely.

True, we have the protection of the OPP, but only on the basis
of routine patrols or if called to investigate a particular occur-
rence.

The mere presence of a resident, uniformed officer, even
though his authority is limited, serves as a definite deterrent
to crime.

The taxpayer public deserves this protection.

Minimum wage rises April 1

Labor Minister Gordon Car-
ton has issued a reminder to em-
ployers that the general mini-
mum wage in Ontario increases
to \$1.65 an hour on April 1.
The increase places Ontario's
minimum wage on the same level
as the present federal minimum
wage.

The construction rate cur-
rently at \$1.75 increases to \$1.90.
The general student rate will
be \$1.30.

The minimum rate for the
hotel, motel, tourist resort, res-
taurant and tavern industry will
be \$1.65. There will be one
exception. A assistant bell cap-
tains, bellmen, doormen, wait-
ers, bus boys and waitresses
will receive the new minimum
wage of \$1.65 on October 1, 1971.
The new rates are the second

step in the minimum wage in-
creases announced last year. At
that time, the minimum hourly
wage was raised from \$1.30 to
\$1.50 starting last October with
the second increase to \$1.65 to
become effective April 1.

Ability Fund

The recent Ability Fund cam-
paign, held in Stirling and area,
netted \$473.50.
There were 28 canvassers in
this year's campaign. They col-
lected over \$100.00 more than
was realized last year.

Letter to the editor

Stirling, Ontario
March, 1971

Dear Friends:

Once again plans are being
made for the twenty-first annual
Stirling Festival of Sacred
Praise. This year it is to be held
on May 3rd to 6th in St. Paul's
United Church, Stirling, Ontario.
We feel it would be a source of
gratification to you as it is to
us if we could equal our festi-
val entries of last year.

A few interested groups and
public spirited individuals made
the Stirling Festival of Sacred
Praise possible when it was in-
stituted in 1950. Down through the
years they have endeavored to
promote more interest for Sac-
red Praise and study and learn-
ing of the Scriptures.

The Festival Committee last
year engaged Ross Metcalf of
Hampton as adjudicator for the

vocal, choir, piano and organ
classes. The committee felt he
contributed much to the success
of the festival.

Rev. Geo. Ambrey, Kingston
handled the scripture classes in
a very creditable manner. The
promotion of the love of good
music and reading and memori-
zing the scriptures is our aim
and it would appear that this is
being achieved.

It is our sincere wish that you
will continue your interest in this
work. The release from strain
of financial operating expenses
contributes greatly to the effec-
tency and enthusiasm of the com-
mittee all of which willingly do-
nate their services and substance
to this cause.

Letter to the editor

Dear Sir:

This month on March 15, the
Moira Valley District Council
held its second meeting of the
year. Present were the presi-
dent, Allan Wells of Stirling;
treasurer, Sid Demorest of Mar-
mora; secretary, John Kirm of
Stirling; District Commissioner,
Don Marchand of Stirling; Assis-
tant District Commissioners,
Earle Harvey and Bruce Wood-
beck of Frankford and Belleville
respectively, and various other
members in the Scouting Move-
ment.

At the present, the District
Staff is trying to promote Anti-
Pollution activities in each town
of the District. For example,
the Scouts of the Village of Fox-
boro have reported that they are
going to clean up the river run-
ning through their community.
Cloyne has also reported that
they will be planting trees and

helping to clean up the area.
Anti-Pollution seems to be the
largest, most worthwhile activity
at this time and as you can see,
both Foxboro and Cloyne are
doing their share to fight pollu-
tion through their Scouting move-
ments.

If any one would care to make
a suggestion as to what the Scouts
and cubs, etc., might do for their
community, please get in touch
with the Scout, Cub, Venture
or Rover leaders, or see you
group committee and sponsoring
mentors.

The boys and girls of the Scout-
ing movements will be out this
spring to try and help their
community. Therefore, if you
have any suggestions at the pre-
sent, feel free to let us know.

Yours in Scouting

John Kirm
Secretary
Moira Valley District Council

St. Paul's Faith Unit

Twenty-two ladies attended the
regular meeting of Faith Unit,
St. Paul's United Church Women,
on Tuesday, March 16. Mrs. A.
Bush received at the door. Mrs.
Bruce Stacey presided.

Various reports and announce-
ments were made. The ladies
were asked to save old glasses,
lenses or frames, which might be
sent to doctors in missions
abroad. Education was urged as
a means toward eliminating po-
verty and other ills. The general
meeting of U.C.W. will be held
on April 6, with the Faith Unit
in charge of the Devotional Per-
iod. The April Unit meeting will
be the occasion of the Easter
Thank Offering. Three ladies
contributed to the Birthday Bar-
rel, and were given the good
wishes of the members.

Mrs. R. Bush, with Miss B.
Hollinger, conducted a worship
service on the subject of Faith,
with appropriate hymns and
scripture reading from Hebrews
11, and a meditation about the
challenge to 'Carry on in faith.'

A roll call was answered with
scripture verses about faith.
Mrs. Bush led in prayer and
dedicated the offering.

Mrs. W. Fitchett gave the pro-
gram, which was a paper writ-
ten by Mrs. M. Clancy on
Living Our Faith. Faith is more
often taught than taught. Living
it inspires it. One learns to

swim only by swimming, and
faith is learned by living it, and
no one can do it for another.
A person living by faith is an
unconscious witness effective in
the family, the community, and
the world at large.
The meeting closed with the
hymn, 'My Times are in Thy
hand', and prayer was led by
Mrs. E. Wannamaker.

A social time was then enjoyed
with a St. Patrick's contest, and
tea was served. Mrs. W. Har-
low expressed thanks to all who
helped with the meeting and the
refreshments.

CENTENNIAL REPORT

A report by Thom Reynolds from Centennial Secondary School, Palmer Road, Belleville

Eighty-nine students from Centennial attended a special Education week program which was held at Molra Secondary School on Wednesday, March 10. The program, based on student participation, was aired over CJBQ's "What Do You Think?" program moderated by Milt Johnston.

Special guest on the program was Miss Loraine Thompson who was brought to Belleville by the Board of Education. Miss Thompson is a free-lance broadcaster and also works for the CBC where she has appeared on the Monday night "Front Page Challenge" program.

The symposium was a one and a half hour discussion between students and chaired by the two broadcasters on student problems at school and in today's society. Students discussed about the length of school and the importance of school with one student saying that school

was a process of memorization and regurgitation and that it gave the student no specialization in any one field.

Democracy lacking in the school system was introduced by one student with another continuing the idea and saying that the system didn't give the student equality and that the largeness of the school was a significant factor towards student unrest and drug use.

One topic discussed at length was drug use among teenagers. The majority of students who spoke on this topic were in favor of drug use and wished to see the legalization of marijuana in Canada.

Students' and teachers' opinion of the program was that no one topic was dwelled on, drug problems among students was talked about too much already in society and that the guest, Miss Thompson, seemed to dominate the program, not allowing the students to give their own opinions enough. They also thought that the program had been poorly prepared and that the line of discussion should have followed along the lines of education.

Students who participated in the program from the Stirling area included Ken Sharp, Paul Sharp, Geoffrey Mackay, Maureen Irish, Lyle Pollock, Elaine Williams, Vicki Fox, Faith Little, Don Sager and Thom Reynolds.

A similar program was held on Friday, March 12, when Walter Currie, Assistant Superintendent of Education and of na- blood discussed with students of Trenton High School Indian problems and Indian Northern Development.

ANGRY AND HURT
Dear Margaret Brookfield:
When a marriage goes along fairly happily for nearly 30 years, would you say I've created trouble by being angry and hurt by the following: Yesterday the phone rang after my husband's who's a dentist - left for work. It was a woman saying it was past the time he had agreed to pick her up and take her to his office. (I knew the woman by name; her daughters used to baby-sit for us. My husband had once before mentioned driving her to his office, but didn't say anything about it this time.) I was amazed at the nerve of the woman when she asked if my husband was still home and should she wait for him. I suggested she take the bus instead. Later, when I asked him about this, he said he felt sorry for the woman because her husband had walked out, leaving her with four children, and she had to go on well. I was embarrassed about the whole thing because my 15-year-old daughter was home that day with the flu and wanted to know who was calling. My husband says I have a sick mind. How should I have handled the matter?

My husband had once before mentioned driving her to his office, but didn't say anything about it this time.) I was amazed at the nerve of the woman when she asked if my husband was still home and should she wait for him. I suggested she take the bus instead. Later, when I asked him about this, he said he felt sorry for the woman because her husband had walked out, leaving her with four children, and she had to go on well. I was embarrassed about the whole thing because my 15-year-old daughter was home that day with the flu and wanted to know who was calling. My husband says I have a sick mind. How should I have handled the matter?

ANGRY AND HURT
Dear Margaret Brookfield:
When a marriage goes along fairly happily for nearly 30 years, would you say I've created trouble by being angry and hurt by the following: Yesterday the phone rang after my husband's who's a dentist - left for work. It was a woman saying it was past the time he had agreed to pick her up and take her to his office. (I knew the woman by name; her daughters used to baby-sit for us. My husband had once before mentioned driving her to his office, but didn't say anything about it this time.) I was amazed at the nerve of the woman when she asked if my husband was still home and should she wait for him. I suggested she take the bus instead. Later, when I asked him about this, he said he felt sorry for the woman because her husband had walked out, leaving her with four children, and she had to go on well. A FORUM ABOUT MATURE WOMEN

Have you a problem as a mature woman, or with one? Write to Margaret Brookfield, Information Center on the Mature Woman, 3 West 57th Street, New York, N.Y. 10019.

Off and On

Dear Margaret Brookfield:
Several years ago, my doctor prescribed estrogen pills for the

menopause. I've taken them off and on, but by no means as he advised. Do you think I'm being too independent?

L.O., Shelton, Wash.
Dear L.O.:
If you're going to a doctor for advice, you ought to take it. It's a fairly safe assumption that he knows more about health care than you do. Why not make an

appointment with him for a general checkup? And this time, listen to what he says.

Husband Trouble
Dear Margaret Brookfield:

Up until last October I would say our 25-year-old marriage was ideal. I never for a moment suspected I would find my husband cheating on me. He is 54, I'm 47. We have four beautiful children: three daughters and a son. All the girls are married. Our son plans to be married soon. About four years ago, my husband—who's retired from the post office—took a job as a security guard at a plant. He has to work near this receptionist who was recently divorced. (She's probably all spruced up with fancy clothes and perfume, because as a receptionist she has to look just so.) Quite by chance, I learned my husband had gone out with her. When I confronted him with this, he confessed, said he was sorry, and I believed him. Later, I found out that when he sent me a corsage on New Year's Eve, he also sent her one. I was furious and deeply hurt. I just wanted him out of my life. He realized I meant it and again asked my forgiveness. Once more I took him back. But my problem is that I can't forget and feel so insecure. I can't sleep nights and get this knot in my stomach just thinking about it. I'm always suspicious because he still has to work with this woman. I keep asking myself: why has this happened? I've never given him reason. Could it be the "cheaters" for us both?

B.D., West Islip, N.Y.

Dear B.D.:

Psychiatrists say an extramarital affair does not necessarily mean a marriage is unhappy or unstable. Most such affairs, they note, happen accidentally, particularly in the busy working world where men are often vulnerable to temptation. Your husband might have been all the more susceptible, since men his age often wonder about the attractiveness to women. A marriage needn't end, however, because of an affair of this kind, especially when there are many good reasons for it to continue. And your own marriage sounds so strong enough to withstand a few minor tremors. As a wise man once said, "Although a man sometimes likes to eat dinner in a restaurant, he really prefers home cooking."

JOHN W. THOMPSON

George W. Thompson of Huntingdon, Que., died suddenly at the Huntingdon Curling Rink in his 70th year.

Born at Stirling, he joined the Bank of Montreal in 1919 and served extensively in branches throughout Ontario including those at Belleville, Sault Ste. Marie, Sudbury, Chatham, Wheatley and Hamilton; also at Calgary, Alta. He was appointed accountant of a branch in Toronto in 1943 and, in 1947, was named manager at Alliston.

George and Lucy Thompson had been residents of Huntingdon since 1954 when the former assumed the position of manager there, which he held until his retirement, climaxing a 46-year banking career.

Mr. Thompson was active in many community organizations. He enjoyed sports, being a member of the Huntingdon Curling Club and the Malone Golf Club. He was treasurer of the Huntingdon United Church, the Huntingdon Curling Club and the Huntingdon Rotary Club and secretary of Union Chapter No. 19 Royal Arch Masons, Huntingdon; Past Principal of Union Chapter No. 19 Royal Arch Masons 1962; 63; Past Officer and present Representative of Ireland, Grand Chapter of Royal Arch Masons of the Province of Quebec; member of Chateauguay Lodge No. 36 G.R.C., A.F. and M., and an auditor of same; Past President of Huntingdon Curling Club and of Huntingdon Rotary Club; trustee of the Canadian Legion Poppy Benevolent Fund; Honorary Member of B.R. 81, Royal Canadian Legion and a Steward of Huntingdon United Church. Survivors include his wife Lucy; two sons, Roger of Quyon P.Q. and Blair of Winnipeg, and Rev. Robert Thompson of Victoria, B.C. Interment was on Sunday at Stirling, Ontario.

DOLLARS AND GOOD SENSE

By William J. Martin
Mr. Martin serves as special consultant to Avco Financial Services. All questions should be sent to him at P.O. Box 5875, London, Ontario. Those containing a name and address will be answered in this column or by direct return mail. No names will be used in print.

Do you know what a lumen is? You should because it's a word that refers to something every one uses every day—an electric light bulb.

Because of a recent ruling by the U.S. Federal Trade Commission, it's a word that you are now seeing on all light bulb packages sold in the U.S. and it's important to understand what it means in order to purchase the right bulb for the right use. Since January 25, all light bulb packages must contain three items, the bulb's lumens rating, the watts rating and the hours rating (the time the bulb is warranted to last according to lab test).

Most people think that a bulb's wattage rating is the indication of how bright the bulb will be. Actually, the wattage is simply an indication of how much electricity that light bulb will use.

Two bulbs of the same wattage can give out considerably different amounts of light. One might be a new longer-life model, for instance, and the other a regular bulb. Some bulbs use new dry-type gas, that produces a greater brightness than the normal argon-nitrogen bulb.

The lumens rating will tell you the light output each bulb is supposed to give. By checking the lumens rating on the package along with the other two indicators of watts rating and hours rating you can determine the right bulb for the right purpose and price.

The next time you go to buy a light bulb, look at the label and take advantage of this new requirement designed to keep you better informed as a consumer.

Dear Mr. Martin:

With the cost of housing going up, we simply can't afford to buy a home these days. We've been thinking about a mobile home. How good a buy are they?

D. V.

Dear D.V.:

The mobile home business has never been better as conventional housing prices continue to increase rapidly. In fact, in the \$15,000 and under price category mobile homes account for about 95% of all new homes being sold in the U.S.

Mobile homes cost about half as much as conventional homes for their size. Prices range from

around \$4,000 to as much as \$25,000 for the big new luxury models. On a square foot basis, this amounts to a range of approximately \$7 to \$18. The typical mobile home costs \$6,000 and measures 12 x 60 feet. This figures out to about \$8 per square foot.

Mobile home parks rent at around \$50 and if you move, plan on spending about a dollar a mile to bring your home with you. Monthly maintenance and utilities will add another \$30 a month to your costs.

When purchasing a mobile home, you avoid all the closing costs and other fees associated

with conventional housing. As personal property, however, your mobile home may be taxed at a slightly higher rate than real estate.

Studies have shown that the average monthly direct cost of owning a mobile home is less than half the cost of a typical \$20,000 conventional home. This is the reason for the success of mobile homes.

In 1971, more than 400,000 mobile homes are expected to be sold in the U.S. This represents more than \$2.5 billion in sales. For the price, it's hard to beat today's mobile home for providing pleasant and comfortable living quarters.

A Focus on Medical Texts

Under \$2.6 million plan, the Pan American Health Organization aims at providing 22 medical texts to 100,000 Latin American students at prices they can afford.

Perhaps even more than for his counterpart elsewhere in the world, for the medical student in Latin America the acquisition of suitable textbooks is frequently a major problem.

In many cases that is so because he simply cannot afford to buy them, but also because libraries are generally unable to provide him with the services he needs. Medical texts on shelves are frequently out of date, or published in foreign tongue with no translation available. All of which forces the student to depend heavily on lecture notes or on mimeographed outlines—makeshift measures at best.

A measure of relief however is in sight—thanks to a new \$2.6 million medical textbook program launched by the Pan American Health Organization, and supported, up to now, by medical educators and schools in 17 Latin American countries.

The program's chief aim is to make it both inexpensive and easy for students to acquire texts. That is achieved through bulk purchases of books from publishers which, in turn, makes it possible for the texts either to be sold or rented at low prices. Moreover, if buying, the student may do so in installments, in from four to eight payments. If purchasing outright, he pays about half the going price. To take one example, a text on pathology retails for \$28. Published under the program, it sells for \$11, and rents for \$5.50 per course.

It is also the support of universities that makes the program work. Day-to-day operations of selling and account keeping, for instance, are handled by medical schools at no charge to the program. Add to that the expertise of members of committees set up to recommend texts suited to Latin American health conditions. They choose from the world's best medical literature.

So far some 47,000 books have been distributed in pathology, biochemistry, physiology, and pharmacology. More than half have been sold, 80 per cent for cash. Next on the list to be published is a pediatrics text, and after that texts on internal medicine, anatomy, histology and microbiology.

A revolving fund set up, in large part by a \$2 million low-interest loan from the Inter-American Development Bank that is repayable in 25 years, will tide the program over to when it becomes self-supporting some five years hence.

By then, a total of 740,000 Spanish and Portuguese texts in 22 under-graduate medical fields will have been purchased, published, and distributed to some 100,000 students in Latin America's 150 medical schools.

Ontario Place marina offers welcome port

TORONTO .. Boating enthusiasts from all over the Great Lakes can look forward to enjoying the facilities of one of the largest, most modern marinas on these inland waters, when they visit Ontario Place, the new 96-acre showplace in Lake Ontario, south of the Exhibition grounds, Toronto.

Boaters' demand for long-term mooring space at the Ontario Place Marina has been heavy. As a result, one-third of the Marina capacity has been reserved for seasonal and monthly moorings.

The big new marine, operated

exclusively by the Ontario Government, is docking facilities for 292 craft, in varying lengths from 16 to 40 feet. It forms part of the exciting Ontario Place complex, which includes exhibitions, the unique Cinesphere theatre, an outdoor Forum, boutiques, restaurants, and many other features.

Protected by a seawall created by sinking three retired lake freighters, the marina has a main spine, 10 feet wide, which is in a solid, fixed position. A secondary dock system, 6 feet wide, and finger docks, 3 feet wide and 2 feet wide, are designed to float on aluminum pontoons with equal buoyancy. The specially-constructed aluminum finger docks are 16, 24 and 30 foot lengths.

A full complement of experienced hosting staff and attendants will welcome all visitors, who will find the most modern facilities at their service. Two Ontario Water Resources Commission-approved pump-out stations, fully equipped, are located in the Marina for the use of visitors. Electrical outlets are centrally situated among the slips. Fuel is available at the nearby mainland, half-mile east of Ontario Place.

Drinking water for boat use is supplied free. Rest rooms, showers, telephones, ice, are at the service of marina users. A 24-hour daily security system is provided for boat protection, under the direction of the Ontario Provincial Police. Another thoughtful feature for long-distance sailors - a handy wash-and-dry laundry section - has been included. Professional medical assistance facilities will be available, rendered by the Metropolitan Toronto Emergency Measures Organisation. Monthly and seasonal boaters will find secured parking with easy access to the marina area, at a nominal charge.

Capturing the nautical flavor of the Ontario Place Marina is a fine seafood restaurant, alongside the docks, too, is a relaxing Salty's Pub, in addition to these, there is an inviting variety of fine dining places, licensed lounges, and snack bars throughout the 96-acre Ontario Place site, as well as 30 acres of picnic space.

Although there will be no club membership for the Marina, it will have its own distinctive Ontario Place pennant.

Visitors will find marina docking charges in harmony with the prevailing slip rates of yacht clubs and marinas throughout Ontario. Special excursion rates will be available for organized boat groups and clubs, included in the docking rates are complementary season passes to Ontario Place.

Boaters interested in seasonal docking applications are invited to phone 365-7641, Toronto.

**APRIL IS CANCER
SOCIETY MONTH**

Cancer is essentially a disease in which the normal and controlled multiplication of cells in the body gets out of hand. The study of what happens to a normal cell to transform it into a cancer cell is basic — hence the often-heard term, basic research. Much of the work is concerned with nucleic acids containing the genetic information transmitted from one generation of cells to the next. Biologists and microbiologists want to know, among other things, what happens to change that information so that normal cells become cancer cells.

Fun things to see and do on that Ontario vacation

A bathtub derby, a miners' festival, an Indian powwow, Shakespeare and even a baseball game are just some of the special attractions featuring an interesting line-up of events in Ontario this summer.

While there's a full roster of activities slated year-round in this bustling Canadian province, following is only a representative selection of major — and some off-beat — festivities taking place during June, July and August. Here's where and when it's happening in Ontario:

The canal at Cornwall, just across the St. Lawrence River from upper New York State, will once again be gaily awash when contestants plunge into the third annual International Seaway Bathtub Derby, July 3 and 4.

The races are held over a genuine bathtub and fiberglass hulls molded from the real thing. Each is fitted with an outboard motor not exceeding six horsepower and may be equipped with floats for stability.

Previous derbies attracted tens of thousands of spectators. Officials expect over 50 entries this year, not only from the Cornwall district but from other Ontario centers and the U.S. as well.

In more cultural vein, Shaw Festival Court House Theatre at Niagara-on-the-Lake will celebrate its 10th anniversary starting June 14 with a program of George Bernard Shaw, Romaine

Weingarten, Max Beerbohm and Noel Coward works.

Shaw's The Philanderer will open June 14 and play in repertory through July 18 with Weingarten's Happy Days of Summer, opening June 22. Noel Coward's Tonight At 8:30 will open July 26, followed July 27 by War, Women And Other Trivia, featuring works of Shaw and Beerbohm, these two presentations to run in repertory until the end of the season, Sept. 5.

The modified repertory system now gives visitors to Niagara-on-the-Lake the opportunity to stay overnight and see both productions.

At Stratford — a pleasant 160-mile drive from Detroit and just 140 miles from Buffalo — Canada's internationally acclaimed Stratford Festival theatre company opens its 10th season June 7 and runs until Oct. 16.

Overlooking the scenic Avon River, the circular theatre with its famous thrust stage sits on a hill surrounded by 175 acres of parkland. A unique vacation opportunity, more than 200,000 patrons annually spend the day picnicking and boating in the parks, swimming, antique hunting or camping in the vicinity. In the evening, they enjoy fine dining, the theatre and first class accommodation.

This season consists of Shakespeare's Much Ado About Nothing and Macbeth; Ben Jonson's comedy, Volpone; John Webster's revenge tragedy, The Duchess of Malfi, and two French farces, The Italian Straw Hat and The're's One In Every Marriage.

More than 100 performers will be on hand to entertain folk buffs during the annual Mariposa Folk Festival to be held on Toronto Island July 9, 10 and 11, morning to evening. Besides big names, the array of talent will include newcomers in the folk world, offering a family-oriented program embracing ethnic folk dancing, contemporary music and presentations in North American, European and various other folk traditions.

A rock festival with a different twist, Cobalt's second annual miners' festival is slated in this storied northern Ontario town July 31 — Aug. 3 and embraces a colorful assortment of events such as step-dancing, mineral treasure hunts, and canoeing, drilling and spike-driving contests.

The town will be decorated as it was in its heyday in the early 1900s and sidewalk cafes will feature sit-down meals every day prepared by various ethnic groups, including Finnish, Italian and French Canadian fare.

Among other highlights are a queen talent contest for girls from mining communities in northern Ontario and Quebec, elaborate rockhound and puppe-

try programs and area clay model souvenirs.

Caribana '71, a fun festival of Caribbean music, art and culture, will enliven Toronto Island July 31 through Aug. 8 with a carnival of steel bands, calypso music, fruit and straw markets, a night club, limbo dancing, an art exhibition and a fashion show.

Family fun is the keynote of northwestern Ontario's annual Lake of the Woods International Sailing Regatta, scheduled for its sixth running Aug. 1 through 7. Beginning and ending in Kenora, the 86-mile course on these scenic inland waters features five glorious days of sailing with overnight stops and daily social events.

Motorists, too, will find much of interest in connection with this novel affair. While the race itself is for participating sailors, travellers over the Trans-Canada highway route might find it an occasion for a stopover in Kenora to share in the merry-making.

Rockhound devotees from both sides of the border will converge on Bancroft Aug. 3 through 7 for its annual Gemshow, eastern Canada's biggest rock and mineral get-together. In the Madawaska Valley 145 miles northeast of Toronto, the Bancroft area is considered the best mineral-collecting locality in Ontario.

Set in a 20-acre tent city, this fun-on-the-rocks festival includes field trips, visits to abandoned mines, swapping sessions, demonstrations of gemstone cutting, hobbies in general and entertainment.

From carnival fun to technological displays and grandstand spectacles, there is something for all late summer vacationers to do and see at Toronto's Canadian National Exhibition, which runs this year from Aug. 19 to Sept. 6, including Sundays. Each year more than three million people have the time of their lives at this largest and oldest annual exposition in the world, with more than 50 permanent buildings dotting its 350 acres of parkland on the shore of Lake Ontario.

And, rising out of Lake Ontario to the south of Exhibition Park is an added feature this year — Ontario Place, the new, giant provincial showcase and entertainment complex.

Indian history and culture come alive in a pageant from the past in south-central Ontario's city of Brantford, where the world first heard the legend of Alexander Graham Bell's telephone, and today the home of the Six Nations Indian Reserve. Traditional dances, chants in a forest amphitheatre, Indian handicrafts and an authentic reproduction of a Six Nations Indian village of 300

MARSH WORLD by ANOUS SHORIT Ducks Unlimited

THUNDER PUMP

The bitter, legendary bird of the marsh is found throughout the old and new world. Called thunder-pump or stake-driver from the peculiar vocal sounds it makes during the breeding season. These have both the rhythm and sound of a suction pump, sucking air in thick muddy water. The sound carries far and is surprisingly loud close at hand. Bitterns skulk about the edge of marshes, often "freezing" with bill pointed vertically, eyes gleaming beneath and plumage blending into the reeds.

Bethel UCW

Following the serving of a pot luck dinner on March 28 in the church hall, the regular meeting of the UCW was held.

Mrs. Russett called the meeting to order and read a poem based on John 3: 16. Mrs. Holden was acting secretary.

Mrs. M. Johnston opened the worship service with the hymn, Crown Him with many Crowns.

The scripture reading, Psalm 15, was given by Mrs. F. Reid. Mrs. Russett gave the meditation on the theme, Easter Gladness. In Thy Presence is fullness of joy, Mrs. Cox lead in prayer.

The roll call was answered with a verse containing the word, Cross. There were 24 members present and four children. Three members paid birthday money. The minutes and correspondence were read and a card signed for a member in hospital. New curtains are to be bought for the hall.

The program opened with the hymn, Never Further than Thy Cross. Mrs. Clements gave a reading entitled, God forgive me, when I whine. Mrs. V. Hagerman played a piano solo, Largo. Mrs. J. Thompson led a study of Basil, speaking of the way of life in that country, of a literate coffee farmer and of the illiterate Indians in the interior. A poem, Healing of the Nations, was read. Take up thy Cross, was the closing hymn followed by the benediction.

Mrs. Russett thanked all who had helped with the dinner and the program.

University women hold meeting

The Canadian Federation of University Women of Belleville and District together with the Pictou Club had as their guest speaker Mrs. L. W. Thompson, the provincial director for eastern Ontario. Her duties are to act as liaison between clubs, to direct regional conferences, and to set up new clubs. Mrs. Thompson gave a complete outline of the CFUW organization in Canada. There are 132 local clubs and five alumnae associations, Belleville being one of the largest clubs. The Canadian membership is 11,000. There are 14 regions, each with a provincial director holding office for three years.

The regional conference is held in the first year of a triennial. This year it will be in Brockville on October 23. The theme is "Leisure - Pain or Pleasure."

Any member may be eligible to go to a council meeting, which meets in the second year. There is one vote from each club - the president or her representative. The general meeting or triennial conference at which each executive member counts as one vote is held in the third year. There is one vote for each 25 members in a club. If only one member goes, then she holds all the votes for the club. In 1973, the triennial conference will be in Ottawa.

The executive committee consists of four vice presidents, (one each for east, west, Ont.

ario and Quebec), president, recording secretary, membership secretary, treasurer and an assistant treasurer. Nominations are made by mail and usually taken from provincial directors.

There are 13 standing committees, some of which are finance, education, international relations, libraries and creative arts, publications, resolutions and special committees - constitution, nominating, and a parliamentarian.

Mrs. Thompson described how our fees were spent. The estimated income for 1970-71 is \$3,800 from fees. Of our three dollar membership, 60 cents goes to IFUW. The balance is used for salaries, fellowships. Two

foundations, (Alice E. Wilson, Golden Jubilee Fund), office travelling, publication of Chronicle, newsletters, council meetings and investment account to support travelling expenses of the executive.

Previous to the speaker, a short business meeting was held. The regional conference in Brockville was announced as well as the conference in Montreal on April 30. An IFUW Conference is being held in Philadelphia in August. A resolution is being put forward at this conference to make pollution a world wide priority and have joint action on borders, i.e., waters of the United States and Canada. During the coffee break, many questions were answered by Mrs. Thompson on some aspect of CFUW.

Mrs. George Sheldon and their children, Bay Ridges, spent the holiday week with her parents Mr. and Mrs. Charles Bailey.

Teacher qualifications to be raised

Students entering Ontario teachers' colleges in 1973 will require a university degree in arts or science, Minister of Education Robert Welch said last week.

Speaking at the opening of the 11th annual meeting of the Ontario Educational Association in Toronto, Mr. Welch said the elementary school teacher qualification will be a degree in arts or science from an Ontario university or the equivalent and one year at a teachers' college.

"This means, in effect, that beginning in 1974, virtually all new teachers joining the staff of our elementary schools will hold university degrees", Mr. Welch said.

Mr. Welch said the move will be a challenge to the universities, which are now assuming the responsibility for teacher education, to explore new ideas and new programs which will have as their objective the provision of quality education for Ontario children. Those now teaching constitute the core of the professional staff on which to build for the future, he said.

Mr. Welch stressed that there is still a shortage of elementary bilingual teachers, particularly in Northern Ontario. This situation, he said, will be watched carefully, and if necessary, special temporary provisions will be made for such teachers.

Mr. Welch stated that during the 70's there will be greater emphasis on the quality of programs.

"It was only 15 years ago that we passed the million mark in enrolment in our elementary and secondary schools and last September we passed the two million mark. Any enterprise that has to double itself in 15 years, to say nothing of the growth in other areas of education, has a monumental task to perform and we can only marvel at the success with which that goal has been obtained.

Mr. Welch said that figures indicate the era of expansion is over and suggested that the 1970's provide the opportunity to direct more effort toward improvements in other directions.

"I have in mind a greater emphasis on 'quality' in the programs which the schools provide and with it the necessity to ensure that the public is knowledgeable and supportive of those programs."
